Tax Cap Legislation

Property Tax Cap - Summary

- Tax cap limits total levy set by local governments, not assessed value or tax rate.
- It generally limits the amount local governments and school districts can increase property taxes by 2% OR the rate of inflation, whichever is less, unless they officially override the tax levy limitation.

4

Tax Cap Legislation

Fire District vs. Fire Protection District

- Generally, fire districts have their own tax levy limit and are NOT part of the municipality's tax cap.
- Levies for fire protection districts (as opposed to **fire districts**) are part of the municipality's tax levy limit.

NYS COMPTROLLER
THOMAS P. DiNAPOLI

5

Tax Cap Legislation

Blended Fire Districts

- Blended fire districts are fire districts that have the town board as their fire commissioners; therefore, they are not independent.
- They do not file separately for tax cap purposes.
- They are reported within the town's AFR.
- There are only six blended fire districts in New York State.

6

Tax Cap Legislation

Calculation Involves Several Components

- Prior Year Levy
- Tax Base Growth Factor
- Allowable Levy Growth Factor – 2% or rate of inflation, whichever is less
- Payments in Lieu of Taxes (PILOTs)
- Available Carryover
- Transfers of Function
- Exclusions (Retirement and Tort Costs)

* Tax base growth factor: Based on Tax and Finance determination of "quantity change," such as new construction, newly taxable status of existing property, or measurable improvements to taxable property within the boundaries of the local government or school district.

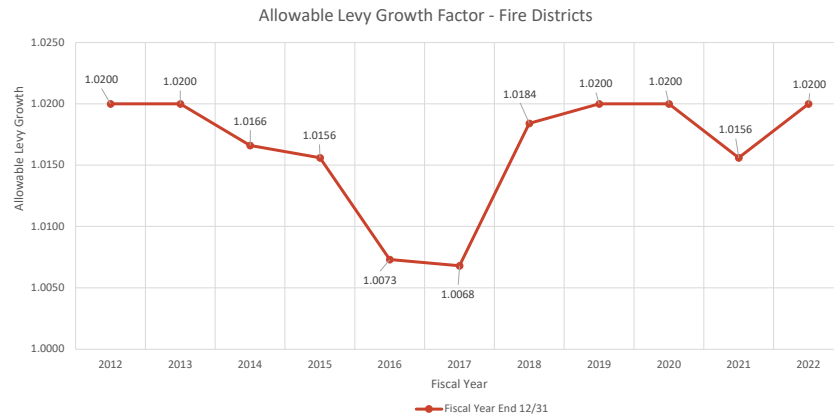

** Allowable levy growth factor: Lesser of 1.02 or inflation factor (percent change in CPI for the 12 month period ending 6 months before the start of the coming fiscal year over the prior 12-month period), but never lower than 1.00.

Tax Cap Legislation

Allowable Levy Growth Factor - Fire Districts

NYS COMPTROLLER
THOMAS P. DiNAPOLI

9

Tax Cap Legislation

Override

- The law allows fire districts to override the levy limit by passing a resolution.
- Must be adopted by 60% of the total governing board (e.g., three out of five).
- Must be passed prior to the adoption of the budget.

NYS COMPTROLLER
THOMAS P. DiNAPOLI

10

Tax Cap Legislation

Consequences of Exceeding the Limit

- If a fire district levies more than the amount allowable under the tax levy limit without a proper override, the fire district must place the excess amount in a reserve.
 - Must be in an interest-bearing account
 - Must be used to offset the tax levy the following fiscal year
- If, prior to the adoption of the budget, the fire district passed a resolution to override, no reserve is required.

NYS COMPTROLLER
THOMAS P. DiNAPOLI

11

Common Errors

- Not filing the form with the Office of the New York State Comptroller (OSC)
 - Districts that fail to complete and submit the form are more likely to adopt a levy that exceeds the limit.
- Filing errors on the form
 - Improper use of tax cap reserve line
 - Only for amounts levied in excess for the prior year, not for capital or equipment reserve amounts
 - Entering budget amount instead of tax levy
 - Do not include other revenues; only include taxes levied on the tax roll.

NYS COMPTROLLER
THOMAS P. DiNAPOLI

12

Reporting Requirements

- Fire districts must calculate their levy limit and report the data to the Office of the New York State Comptroller:
 - Using our online services application.
 - Prior to adoption of budget.
- Must be submitted even when an override has been passed.

Step 1 of 15 - Prior Year Real Property Tax Levy

Prior year levy is the total amount that was levied on the tax rolls for the prior year. Determining which items to include in the levy figure can be complicated. If you are unsure, consult the guidance below.

[How to Determine Your Prior Year Levy](#)

Prior Year Real Property Tax Levy

According to the 2021 Tax Cap Form, the local government's proposed levy for the fiscal year ending 2021 was **\$1,071,840**

Does the proposed levy amount equal the amount actually levied?

Yes, \$1,071,840 was the actual amount levied for the fiscal year ending 2021.
 No, the proposed levy differs from the actual amount levied. I will provide the actual amount levied for the fiscal year ending 2021.

Step 2 of 15 - Tax Cap Reserve

Only necessary if your locality exceeded the tax levy limit in the prior year without an override.

What is a Tax Cap Reserve? 

What is a Tax Cap Reserve Offset? 

Please provide the following...

Did your local government exceed the 2021 Tax Levy Limit without an override?

Yes
 No

Tax Cap Reserve

Enter the amount that your local government levied in excess of the tax levy limit, including accrued interest, from the 2021 Fiscal Year.

Step 2 of 15 - Tax Cap Reserve

Only necessary if your locality exceeded the tax levy limit in the prior year without an override.

What is a Tax Cap Reserve? 

The Tax Cap Reserve is the amount that your local government or school district placed in reserve (including accrued interest) for exceeding the tax cap in the prior fiscal year without an appropriate override. When an excess tax levy has been set aside in reserve, the law requires that the excess levy plus any interest earned must be used to offset the tax levy for the coming fiscal year. Note: This reserve should not include reserves for purposes other than tax cap.

What is a Tax Cap Reserve Offset? 

The Tax Cap Reserve Offset is the amount that was used to reduce the prior year's levy as a result of exceeding the tax cap. This amount is used to restore that reduction from the prior year to bring the local government or school district's prior year levy back to the base amount. For more information, please refer to our [Tax Cap Instructions for Local Governments](#), or [Tax Cap Instructions for School Districts](#).

Prior Year Tax Cap Reserve Offset

The Tax Cap Reserve amount that was used to reduce the tax levy limit for the fiscal year ending 2021 was **\$1,000**.

This amount is based on your fiscal year ending 2021 Tax Cap Form.

To make any adjustments to this amount, you would need to resubmit your 2021 Tax Cap Form. Please contact our office at (866)321-8503 for assistance.

Please provide the following...

Did your local government exceed the 2021 Tax Levy Limit without an override?

Yes
 No

Step 3 of 15 - Growth Factors

The Tax Base Growth Factor and Allowable Levy Growth Factor are provided below, if available.

What is a Tax Base Growth Factor?

The Tax Base Growth Factor is derived using a "quantity change factor," which is calculated by the Department of Taxation and Finance. Please contact the Tax and Finance Solutions Center at (518) 591-5233 with any questions on how this figure is calculated.

For more information, visit [Taxation and Finance](#).

What is an Allowable Levy Growth Factor?

The Allowable Levy Growth Factor is equal to one plus the smaller of 2 percent or the inflationary change using the Consumer Price Index, but is never less than one. This figure is calculated by OSC.

For more information, visit [Allowable Levy Growth Factors](#).

Tax Base Growth Factor

A Tax Base Growth Factor of **1.0018** has been provided for this fiscal year.

Allowable Levy Growth Factor

Your Allowable Levy Growth Factor is **1.0200**.

23

Step 4 of 15 - Payments in Lieu of Taxes (PILOTs)

PILOT amounts should reflect what is/was expected to be collected during the fiscal year, not what is/was actually collected. These amounts should be based upon your PILOT agreements/schedules.

What is a PILOT?

A PILOT generally refers to payments made pursuant to statute or contract to taxing jurisdictions equal to the amount, or portion of the amount, of real property taxes that would have been levied by or on behalf of the taxing jurisdiction if the real property was not tax exempt. PILOTs are often included as part of an IDA agreement with a commercial or industrial project that is receiving financial assistance for the duration of the project. The property is typically taken off the tax roll and payments in lieu of taxes are made instead.

Please provide the following...

Does your local government have PILOTs Receivable in the coming or prior fiscal year?

- Yes
 No

Prior Year PILOTs Receivable

This amount should not change to reflect what was actually collected for PILOT payments. You may, however, modify this prior year figure in order to rectify a material error.

According to your prior year Tax Cap Form, your PILOTs Receivable for the fiscal year ending 2021 was \$0.

- \$0 is the correct PILOT amount for the fiscal year ending 2021.
 Due to a material error, I need to modify the PILOT amount for the fiscal year ending 2021.

NYS COMPTROLLER
THOMAS P. DiNAPOLI

24

Coming Year PILOTs Receivable

PILOTs Receivable should be the amount of all PILOTs expected to be collected for the coming year, based in part on your PILOT agreements/schedules and budget.

Enter the total of any PILOTs Receivable for the fiscal year ending 2022.

Step 5 of 15 - Torts

A portion of the costs resulting from court orders or judgements arising out of tort actions may be excludable from the tax levy limit. In general, tort actions do not include tax certiorari claims, contract claims, or administrative consent orders.

What is a Tort Exclusion?

A tax levy necessary for expenditures resulting from court orders or judgements against the local government or school district arising out of tort actions may be excluded from the tax levy limit for any amount that exceeds 5 percent of the total tax levied in the prior fiscal year. In general, a tort action involves a claim for personal injury and/or property damage made against a local government or school district. These exclusions are not common and generally do not include items such as tax certiorari, contract claims, administrative consent orders, etc.

As noted, this exclusion is applicable only if the tax levy necessary to pay the annual debt service associated with bonds or notes issued for, or the total payment budgeted to pay for, the tort order or judgment exceeds 5 percent of the prior year's levy. The exclusion will not carry forward to the calculation page if the amount does not exceed 5 percent of the prior year's levy.

Exclusions used to increase your current year tax levy limit are good only for one year and will therefore be subtracted from your tax levy limit when you file next year's form.

Prior Year Tort Exclusion

Your fiscal year ending 2021 tort exclusion of \$0 has been used to reduce your current year levy limit calculation.

This amount is based on your fiscal year ending 2021 Tax Cap Form.

To make any adjustments to this amount, you would need to resubmit your 2021 Form. Please contact our office at (866)321-8503 for assistance.

Step 6 of 15 - Carryover

You are allowed to carry over the lesser of the two calculation results. Using all (or a portion) of your available carryover will increase your current tax levy limit.

Calculation #1 \$19,813 OR Calculation #2 \$16,062

How is Available Carryover Calculated?

If the total property taxes levied was less than the levy limit in the prior year, a local government or school district is permitted to carryover the lesser of the difference between what was actually levied and the levy limit without exclusions (Calculation #1), or 1.5 percent of the prior year levy limit without exclusions (Calculation #2).

Please note that if there is a carryover, you may use the full carryover amount, a portion of the amount available, or none. Using the full amount or a portion of the Available Carryover in the current year's calculation will increase your current year tax levy limit.

If you had an error on the prior-year form and this amount is incorrect, you may calculate your carryover separately and enter it below or contact our office to resubmit your prior-year form.

Available carryover is calculated based on the information you have entered in both your prior year and current year forms.

Calculation #1:		Calculation #2:	
2021 Levy Limit	\$1,070,813	2021 Levy Limit	\$1,070,813
