Asset Management and Financial Institution Strategy Report for the 2014–2015 Fiscal Year

The New York State Minority- and Women-Owned Business Enterprise (MWBE) Asset Management and Financial Institution Strategy (Chapter 171, Laws of 2010) was enacted to codify and replicate best practices for providing MWBEs (or firms) that are asset managers, investment banks and financial and professional service firms with the opportunity to offer services to fiduciary-controlled entities established by New York State law. The law authorized the State Comptroller, as the Trustee of the New York State Common Retirement Fund (CRF or the Fund), and other fiduciary-controlled entities (i.e., the New York State Teachers' Retirement System (NYSTRS), the New York State Insurance Fund (NYSIF) and the New York State Deferred Compensation Plan (NYSDCP)) to establish an MWBE Asset Management and Financial Institution Strategy (the Strategy). State Comptroller Thomas P. DiNapoli has implemented the Strategy in accordance with the law.

Under the Strategy, the Fund has developed guidelines for the certification of MWBE firms that are conducting investment-related business with the Fund or seeking to do so. The guidelines, which were adopted December 13, 2010, are listed on page 17. The Fund, in conjunction with NYSTRS and NYSIF, is continuing to develop and update a database of these MWBE firms and will issue periodic reports on the success of the Strategy. Additionally, the Fund works closely with NYSTRS and NYSIF to advertise the Strategy and coordinate conferences for MWBE firms to learn about business opportunities with fiduciary-controlled entities.

In accordance with the Strategy, the Fund submits this report to the Governor, the Legislature and the Chief Diversity Officer of the State of New York. The data included in this report reflects the Fund's utilization of MWBE firms as of March 31, 2015.

*As used in this Report, the term MWBE encompasses: business enterprises that are at least 51 percent owned by one or more minority group members, or one or more women; and business enterprises that are substantially owned and/or operated by women or minority group members, as defined on page 16.

A Message from Comptroller Thomas P. DiNapoli

June 2015

I am pleased to present the Minority- and Women-Owned Business Enterprise (MWBE) Asset Management and Financial Institution Strategy Report for the fiscal year ended March 31, 2015.

During my tenure, the Office of the State Comptroller has worked to promote diversity and inclusion in our agency and throughout New York State government. We strive to ensure a level playing field for all firms seeking to do business with the State. As trustee of the \$183.5 billion New York State Common Retirement Fund, I have strengthened and expanded our Emerging Manager Program, which helps the Fund build relationships with new and small investment managers, including MWBEs, whose talents have traditionally been underutilized. Our responsibilities to implement and report on the MWBE Strategy are consistent with these longstanding priorities.

In authorizing the Strategy, New York State recognized that promoting equal opportunity is good business. An increasing number of MWBEs are well-qualified and eager to provide an array of financial services to fiduciary entities such as the Common Retirement Fund. We identify and educate such firms about the business opportunities available through the Fund, as well as our procurement process. Opening up competition to include these firms helps us select the most promising ideas to continue to grow the Fund's diversified portfolio for the benefit of some one million Retirement System members and pensioners.

Under my direction, the Fund has invested approximately \$9.5 billion with MWBEs. This year, the National Association of Securities Professionals inducted our Chief Investment Officer, Vicki Fuller, into its Wall Street Hall of Fame, and I was honored to receive a Champions Award from the Association of Asian American Investment Managers in recognition of the Fund's commitment to diversity and inclusion. Continuing to reach out to discover new ideas and fresh talent in the investment arena helps the Fund maintain its strong performance.

The Office of the State Comptroller is working to increase awareness among MWBEs of opportunities to serve as consultants, vendors and asset managers for the State. Through networking, education and targeted research, we are helping set the standard for best practices to engage emerging managers and MWBEs. We believe expanding opportunity to include businesses is beneficial to all New Yorkers.

A Message from Chief Investment Officer Vicki Fuller

The Common Retirement Fund is committed to ensuring that Minority- and Women-Owned Business Enterprises are afforded a fair and equal opportunity to participate in the management of the Fund's assets and in the procurement of goods and services. This report provides information on the Fund's MWBE certification process, its Annual Emerging Manager and MWBE Conference, and its utilization of MWBEs.

The Fund's Emerging Manager Program is a vital component of our investment portfolio. The EM Program seeks to identify emerging managers, with a specific emphasis on smaller and newer asset managers, who can invest capital and provide strategic advice to the Fund. While the EM Program is distinct from the MWBE Strategy, many emerging managers also fit the criteria for MWBEs.

These programs enhance the Fund's ability to partner and invest with experienced but newer firms that are expected to grow into larger, institutional, best-in-class investment managers. These firms provide the Fund with exposure to business sectors and opportunities that larger, more established asset managers may overlook.

The performance of our MWBE Strategy and EM Program demonstrates that the outlook for realizing attractive risk-adjusted returns with diverse managers is strong. I am proud to say that the Fund is one of the few state pension funds in the nation with emerging manager platforms in almost all major asset classes.

The Fund is pleased to report on the status of our MWBE Strategy. As of March 31, 2015, approximately \$9.5 billion in fund assets were managed by MWBEs. We are committed to continuing and expanding our efforts in the future.

Overview of the New York State Common Retirement Fund

State Comptroller Thomas P. DiNapoli is the Trustee of the New York State Common Retirement Fund. The Fund holds assets in trust for more than one million members, retirees and beneficiaries of the New York State and Local Retirement System (NYSLRS), which comprises past and present employees from State government, local governments, school districts (with respect to non-teaching employees) and some public authorities. More than 3,000 local public employers participate in the Retirement System.

In fiscal year 2014-2015, NYSLRS paid an estimated \$10 billion in benefits. The Fund earned a 7.16 percent rate of return over the fiscal year, bringing its estimated value to \$183.5 billion as of March 31, 2015. The NYSLRS remains strong and healthy, and is recognized as one of the best-funded and best-managed pension plans in the country. It is also one of the most transparent.

Since taking office, Comptroller DiNapoli has instituted a number of reforms to enhance the accountability and transparency of the Fund's transactions. He has made it his mission to ensure the Fund is managed with the highest standards of ethics and professionalism.

Overview of the Emerging Manager Program

In October 2007, Comptroller DiNapoli stated,

“ One of my top priorities has been to expand the diversity of our manager pools. The firms in our Emerging Manager Program, the majority of which are minority- and women-owned, have proven to be more entrepreneurial, focusing on smaller ends of the market. These investments have created a stabilizing force for the Fund. ”

The New York State Common Retirement Fund’s Emerging Manager Program began in 1994 with an allocation of \$49 million to Progress Investment Management Company, a minority- and women-owned firm. As of March 31, 2015, the Progress Investment Management Company portfolio had a market value of \$1.62 billion which is invested with emerging investment managers, many of which are minority- and women-owned firms (MWBE firms) or firms substantially owned or operated by minorities or women.

Today, the New York State Common Retirement Fund (CRF) utilizes nine emerging manager platforms through which emerging investment managers invest in the public equity, private equity, hedge fund and real estate asset classes. The emerging manager platforms are managed by Progress Investment Management, FIS Group, Leading Edge Investment Advisors, Bank of America Merrill Lynch Capital Access Funds Management, Muller and Monroe, Farol Asset Management, Artemis Real Estate Partners, Rock Creek Group and Pine Street Alternative Asset Management. The emerging manager platforms have enabled the Fund to cultivate, develop, and

incubate the next generation of external investment managers as candidates for transition into the core portfolio. Over the last 20 years, the CRF has transitioned 14 managers from the Emerging Manager Program, including nine MWBE firms or firms substantially owned or operated by minorities or women, from the Progress Investment Management portfolio into the CRF’s core portfolio.

As of March 31, 2015, investment firms participating in the Emerging Manager Program managed \$5.2 billion in assets for the CRF. MWBE firms or firms substantially owned or operated by minorities or women managed almost \$9.5 billion through both the Emerging Manager Program and direct allocations.

The Emerging Manager Program was established to:

- Invest in newer, smaller and diverse investment management firms;
- Access the next generation of talent in the investment field; and
- Provide opportunities for the CRF to invest with qualified MWBE firms and firms substantially owned or operated by minorities or women.

Annual Emerging Manager Conference

The New York State Common Retirement Fund hosts its Emerging Manager Conference annually in February. The conference offers an opportunity for emerging managers to meet with the Fund's staff and investment partners, as well as network with industry peers, consultants and other institutional investors. Emerging managers are able to learn how the CRF selects and monitors investment partners and constructs a well-balanced portfolio.

On February 13, 2015, the CRF hosted its Eighth Annual Emerging Manager Conference in Albany, New York. The conference was attended by 500 emerging managers, many of whom were MWBEs. In addition, staff members from pension plans in several other states who are interested in replicating our all-asset-class approach attended. The keynote speaker was Rob Goldstein, BlackRock Senior Managing Director and Chief Operating Officer and Global Head of BlackRock Solutions. The conference included a speed-networking component which allows emerging managers the opportunity to present their products and services to staff and consultants. The Fund's investment partners participated in informational workshops focused on hedge funds and opportunistic investments, private equity, public equity, real estate and broker/dealers.

During the conference, Comptroller DiNapoli announced a \$400 million allocation to Leading Edge Investment Advisors, a women- and minority-owned investment management firm, for a new public equity small cap investment platform. "That's \$1.2 billion in commitments since last year's conference, bringing our current total commitment to the Emerging Managers Program to more than \$5 billion," said DiNapoli.

This past year, the Fund made an additional \$500 million commitment to Artemis Real Estate Partners for real estate investments and an additional \$300 million commitment to BAML Capital Access Funds for private equity investments. With the addition of Leading Edge, the CRF now has nine emerging manager partners who are actively investing in emerging managers.

MWBE Certification Process

The Fund has retained Altura Capital Group, a New York State-based MWBE, to conduct an annual MWBE certification review process of firms doing business with the Fund. As part of its certification process, Altura contacts the Fund's current network of more than 400 asset managers, financial institutions and financial and professional service contractors to determine which firms qualify as MWBEs. A firm may qualify as an MWBE as follows:

Traditional MWBE

The firm is at least 51 percent owned by one or more minority group members, and/or by one or more women, in each case, who have significant experience in the relevant area.

Substantially owned and/or operated MWBE

The firm is substantially owned and/or operated by women or minority group members who have significant experience in the relevant area. "Substantially owned and/or operated" includes firms that are:

- At least 33 percent owned by members of minority groups or by women; or
- Between 25 percent and 32 percent owned by members of minority groups or women and:
 - The firm is operated by non-owner, senior professionals that are minority or women; and
 - The total MWBE ownership and MWBE operations equal at least 33 percent.

Through the annual certification review process, the Fund, together with NYSTRS and NYSIF, will continue to develop and update a public database of firms certified under the above criteria as MWBEs. In a manner consistent with their fiduciary responsibilities, the Fund, NYSTRS and NYSIF have closely coordinated the adoption and management of the Strategy in order to further public awareness, outreach and expansion of business opportunities for MWBEs. As a result, MWBEs are able to promote their services more seamlessly to fiduciary-controlled entities in New York State.

This year, Altura Capital Group sent surveys to 404 firms that provide a variety of services to the Fund. As of March 31, 2015, Altura had received 367 completed surveys. This report is based on the information received from the completed surveys.

False submissions may also be reported to appropriate law enforcement entities.
