---

## **Workers' Compensation Board**

---

Report 2012-S-71

May 2013

---

## Executive Summary

---

### Purpose

To express an opinion on the fair presentation of the Report of Workers' Compensation Program Statement of Assessable Expenses for the three fiscal years ended March 31, 2011.

### Background

The Workers' Compensation Board (Board) was established under Article 8, Section 140 of the Workers' Compensation Law. The primary responsibility of the Board is to ensure that employees who are unable to work due to injury or illness are compensated under programs covering both occupational and non-occupational disability and sickness. Coverage for these benefits, with limited exception, is to be provided by employers. Costs to administer the Workers' Compensation Program (Program) are recovered via assessments on participating insurance carriers, self-insurers, and self-insured political subdivisions of the State. The Law requires that recoverable expenses be audited by the State Comptroller.

### Key Findings

- We found the Statements referred to above present, in all material respects, the costs to administer the Workers' Compensation Program for the three fiscal years ended March 31, 2011, in accordance with the modified cash basis of accounting.

### Key Recommendations

- No recommendations

### Other Related Audits/Reports of Interest

# Independent Auditor's Report

## State of New York Office of the State Comptroller

### Division of State Government Accountability

We have examined the accompanying Consolidated Statements of Costs to Administer the Workers' Compensation Program (Statements) for the three fiscal years ended March 31, 2011. The Statements are the responsibility of Board management. Our responsibility is to express an opinion on the fair presentation of the Statement data based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in Government Auditing Standards issued by the Comptroller General of the United States. Accordingly, our examination included tests of selected transactions and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion.

In our opinion, the statements referred to above present, in all material respects, the costs to administer the Workers' Compensation Program for the three fiscal years ended March 31, 2011 in conformity with the modified cash basis of accounting, a comprehensive basis of accounting other than generally accepted accounting principles. (Note 4, See notes starting on page 7.)

In addition to being the State Auditor, the Comptroller performs certain other constitutionally and statutorily mandated duties as the chief fiscal officer of New York State. These include operating the State's accounting system; preparing the State's financial statements; and approving State contracts, refunds, and other payments. In addition, the Comptroller appoints members to certain boards, commissions and public authorities, some of whom have minority voting rights. These duties may be considered management functions for purposes of evaluating organizational independence under generally accepted government auditing standards. In our opinion, these functions do not affect our ability to conduct independent examinations.

# Notes to the Consolidated Statements

---

## 1. Board Operations

The Workers' Compensation Board (Board) was established under Article 8, Section 140 of the Workers' Compensation Law (Law). The Board, approved for 13 members, currently consists of 13 members appointed by the Governor with the advice and consent of the Senate.

The primary responsibility of the Board is to protect the rights of employees and employers by ensuring the proper delivery of benefits to those who are injured or ill, and by promoting compliance with the law. The Board also ensures that required payments are made for those covered under the Volunteer Firefighters' Benefit Law, the Volunteer Ambulance Workers' Benefit Law and for certain injuries sustained by civil defense volunteers.

## 2. Cost Recovery Methods

Costs to administer the Workers' Compensation Program are recovered via assessments on participating insurance carriers, the State Insurance Fund, self-insurers and self-insured political subdivisions. The law provides that recoverable expenses include direct costs of personal service, maintenance and operation, employer fringe benefit contributions, rental for space occupied in State-owned or State-leased buildings, and the services and expenses of central service agencies.

According to Appropriate Sections of the Law, recoverable costs are allocated between programs as explained below.

## 3. Summaries of Appropriate Sections of the Law

### *A) Section 151 - Workers' Compensation*

The Board receives and processes workers' compensation claims. The Board adjudicates these claims and makes findings and awards to injured claimants. All costs incurred by the Board in administering the Workers' Compensation Program shall be recovered by assessing all companies writing workers' compensation policies and those firms and municipalities authorized as self-insurers. Depending upon the type of insured, the specific amount assessed each company is based on either its proportionate share of the total compensation paid, direct written premium, standard premium or pure premium as prescribed in the respective sections of the Law.

### *B) Section 228 - Disability Benefits*

The Disability Benefits Program provides eligible employees with cash payments to partially replace earnings lost during periods of temporary incapacity caused by off-the-job sickness or injury. Coverage is required to be provided by all employers, with certain exceptions for agricultural and governmental employers. Municipalities may elect to

self-insure. Employers must either provide statutory coverage or participate in a plan that provides benefits that are at least as favorable as statutory coverage. The Board must approve all plans.

To recover its costs of administering the Disability Benefits Program, the Board assesses all insurance companies and self-insurers providing coverage for disability benefits. The individual assessments are based on each provider's portion of the total payroll for all employees who were covered during the calendar year preceding the assessment. The term "payroll" shall include the first \$7,000 of each employee's earnings.

#### ***C) Section 50 - Self-Insurers***

The Workers' Compensation Law allows an employer to be self-insured for the purpose of providing workers' compensation. In these cases, the employer must furnish proof of financial ability to pay such compensation. The self-insurer is required to deposit securities or a surety bond with the Board to cover its potential liability. The Board also determines the amount and type of security each self-insurer will deposit. For 2008-09, the Board assessed all costs incurred in administering this program based on the entity's proportionate share of pure premium. For 2009-10 and 2010-11, the assessment was based upon the self insured's proportionate share of the total compensation paid.

#### ***D) Section 60 – Volunteers***

The Volunteer Firefighters' and Ambulance Workers' Benefit Laws provide that volunteer firefighters and ambulance workers (emergency medical technicians) be covered for injuries they sustain when performing their authorized duties. Section 60 of these laws specifies that all costs related to the administration thereof are to be recovered from insurance carriers providing coverage to members of volunteer fire departments and volunteer ambulance workers. Determination of such costs is to be based on each carrier's proportionate share of the total indemnity benefit payments for that fiscal year.

### **4. Basis of Accounting**

The Board prepares its Consolidated Statements of Costs to Administer the Workers' Compensation Program on a modified cash basis of accounting. Generally, cash receipts are recognized when received, and cash disbursements are recognized when paid. However, the Board includes disbursements made during each April through June against outstanding encumbrances of the previous fiscal year as assessable costs for that prior year.

## 5. Miscellaneous Adjustments

### *Department of Labor (DOL)*

Each year, DOL performs a Statewide Survey of Occupational Injury and Illness. The objective of the survey is to produce reliable data concerning the incidence and characteristics of workplace injuries and illnesses in New York State. The DOL adjustment accounts for a portion of its costs to perform the survey.

### *Department of Health (DOH)*

The DOH adjustment accounts for its cost to calculate and promulgate inpatient hospital rates for workers' compensation covered injuries.

### *Assessment Adjustments*

These adjustments reflect the changes to individual carrier assessments in instances where a carrier originally submitted erroneous or incomplete program information to the Board.

## 6. Cash Receipts

The Board receives various cash receipts (e.g., interest on bank accounts, license fees, penalties) as a result of program operations. These cash receipts are used to offset program operating costs.

## 7. Accounting Records

The direct cash receipts, cash disbursements and adjustments used to compile the Board's Consolidated Statements of Costs to Administer the Workers' Compensation Program are based on the financial accounts maintained by the Workers' Compensation Board and are in agreement with the expenditure records maintained by the Office of the State Comptroller. Indirect costs (e.g., fringe benefits) are based on rates developed by the NYS Division of the Budget.

## 8. Expenses Relating to Defaulted Self-Insurers

The expenses related to the defaulted self-insurers are represented by the General Refunds line in the Self-Insurers column. This amount represents the net expenses rather than the actual expenses. Legislation passed in 2008 allows the NYS Workers' Compensation Board to borrow money from the Uninsured Employers Fund (UEF) to help offset the assessments related to defaulted self-insurers. This amount, plus any amounts that have been paid back by the insolvent self-insurers, is subtracted from the total expenses to arrive at the net amount to be assessed against the solvent self-insurance community. The self insurance expenses in the General Refunds account are related to the net expenses of the defaulted self-insurers. Please note that for Fiscal Year 2008-2009, there were no paybacks because these assessments had just begun; there were

no transfers of UEF monies because the legislation had not yet taken effect. Below is a breakdown of each year's expenses, paybacks, and UEF transfers:

**FY 2008-2009**

<b>Total Expenses (General Refunds Account):</b>	<b>\$26,119,297</b>
--	---------------------

**FY 2009-2010**

Total Expenses:	\$42,779,291
Total Amount Paid Back to Account:	(12,850,288)
Reduced by funds borrowed from UEF:	(21,681,588)
<b>Net Expenses Assessed to Self-Insurers (General Refunds Line)</b>	<b>\$8,247,415</b>

**FY 2010-2011**

Total Expenses	\$35,436,802
Total Amount Paid Back to Account:	(8,462,546)
Reduced by funds borrowed from UEF:	(16,763,543)
<b>Net Expenses Assessed to Self-Insurers (General Refunds Line)</b>	<b>\$10,210,713</b>

### Vision

A team of accountability experts respected for providing information that decision makers value.

### Mission

To improve government operations by conducting independent audits, reviews and evaluations of New York State and New York City taxpayer financed programs.
